2023 Annual Statistical Summary of Complaints and Internal Affairs Investigations

Background

This document has been prepared as a statistical summary of complaints filed against members of the Troy Police Department in 2023. This summary follows CALEA Standard 26.2.5 which requires, *"The agency compiles annual statistical summaries of complaints and internal affairs investigations, which are made available to the public and agency employees."*

Policy

It is the policy of the Troy Police Department to investigate all allegations of employee misconduct or accusations against the agency in general. All reports or accusations, regardless of source, another employee (internal), an outside source (external), or anonymous complaint will be completely investigated to ensure the integrity of the agency and its members.

Complaints of a criminal nature or those that could potentially result in serious discipline such as termination, demotion, loss of wages, or benefits will be formally investigated by the internal affairs function. This may include, but is not limited to allegations of corruption, excessive use of force, or a violation of a person's civil rights.

Complaints of a less serious nature will be conducted by the employee's immediate supervisor. Examples of this type of complaint could include rudeness to the public, inadequate service, or other policy violations.

Conclusion of Fact

Investigations, once complete, will include one of the following findings:

- **Proper conduct** is that the allegation is true but the action of the department or the employee was consistent with department policy.
- **Improper conduct** is when the allegation is true and the action of the department or the employee was inconsistent with department policy
- **Policy failure** is that the allegation is true, and although the department or employee action was not inconsistent with department policy, the complainant suffered harm.
- **Insufficient evidence** is that there is insufficient proof to either confirm or refute the allegation.
- **Unfounded** complaint is that the allegation is demonstrably false or there is no credible evidence to support the allegation.
