

Inventory

Unique Service Line ID	Street Number	Street Name	City	Zip Code	County	Inventory		Longitude	System-Owned Portion Service Line Material Classification	If Non-Lead in Column O...	Customer-Owned Portion Service Line Material Classification
						Latitude				Was Material Ever Previously Lead?	
A Unique ID by the public water system for each service line.	Water systems must track addresses of all service lines in their internal inventory. For the publicly accessible version, location identifiers are required for lead and galvanized requiring replacement. If the system does not use addresses for their location identifier, other options could include GPS coordinates, landmark, intersection, block, or other details to specify service line locations.								If "Non-Lead Other", describe in Comments field	Important for determining if service line requires replacement	If "Non-Lead Other", describe in Comments field
