Community Electric Aggregation Notification

Dear Resident or Small Business,

Welcome to your community electric aggregation program. Members of our community voted in favor of government aggregation, a program authorizing local officials to purchase electricity from a retail electric generation supplier certified by the Public Utilities Commission of Ohio (PUCO). To further increase the buying power, your community joined with other area communities as part of the **Miami Valley Communications Council (MVCC).** Dynegy has been selected as our certified electric generation supplier.

How You Benefit

By participating, you'll receive the following exclusive pricing on the electric generation portion of your electric utility bill:

Your Electric Utility	Dynegy Fixed Price [1]	Current Term End [2]	Early Termination Fee
Ohio Edison	11.53 cents ($0.1153) per kWh	December 2029	None

Same Reliable Service

Your electric utility will continue to deliver your electricity, maintain the electric lines, and respond to emergencies. You will continue to receive a single, easy-to-read bill from your electric utility with the Dynegy generation supply charges included**.** There is no cost for enrollment, you will not be charged a switching fee, and **you do not need to do anything to participate.**
